Dear Potential Sponsor.

We're so excited to welcome you to HackIllinois 2022! In the past year, HackIllinois has maintained its commitment towards hosting engaging and inclusive events for attendees with all levels of experience in tech. Through a comprehensive virtual hub, we've been able to craft cohesive attendee experiences at events such as HackThis—our week-long hackathon focused on virtual education—as well as HackIllinois 2021—our first virtual HackIllinois iteration.

And as we now emerge from a pandemic and from a year of virtual events, we can't wait to bring HackIllinois back to our attendees in an in-person format through our first-ever hybrid event from February 25-27, 2022. We'll offer an in-person event experience to all UIUC students—complete with workshops, meals, and mini-events—and a virtual event format to those from other schools. With your presence at our in-person event, we're confident that we'll provide the same HackIllinois feel that our attendees have come to love and enjoy over the years.

As a sponsor, you'll be able to:

- 👚 Send mentors to work directly with students on projects
- Access participant information and résumés
- 👚 Showcase your brand and develop innovative projects through workshops and other events
- 👚 Contribute and bring awareness to the Computer Science community at Illinois and beyond

The following page contains more details on how you can become a part of HackIllinois 2022, either as an in-person or virtual sponsor. To get involved or for any questions, please reach out to us at sponsor@hackillinois.org. We look forward to creating an amazing experience with your support!

Best. The HackIllinois Family
